8 May 2019

Dear Mr Querin,

Shore Based Maintainer – MCA 417/002

Thank you for your recent communications and the documents provided.

I am pleased to confirm that Ing. Büro Querin GmbH meets the conditions set out in MGN 417 and IMO Assembly Resolution 702 (17). Accordingly, MCA can authorise your company to provide GMDSS radio Shore-Based-Maintenance services to UK flag ships. Ing. Büro Querin GmbH is registered for this purpose from today's date and the authorisation will expire on 6 May 2024.

Noting that the document provided from ABS granting approval for inspection and testing will expire in September 2019 we would ask you to let us have a copy of its replacement in good time. We wish to ensure that your company has Recognised Organisation approval for GMDSS maintenance work throughout the five year term of this arrangement.

Yours sincerely

J.P. English
